

Proposal review form

April 18, 2026

General information

Title of the proposal

Authors of the proposal

1 Part 1

The questions in this part probably take several few lines to answer. Make sure to explain your answer.

- 1.1 Give two positive general points about the proposal
- 1.2 Give two general points to be improved in the proposal
- 1.3 Is it generally clear what this proposal wants to investigate? Why (not) ?
- 1.4 Are the research questions and hypotheses clear and properly formulated? Are the concepts used in them operationalised in good fashion?
- 1.5 What is your impression of the research setup/design? Can the research questions be answered this way?
- 1.6 Is the domain/simulation chosen relevant and/or interesting and is it clearly described?
- 1.7 Give some suggestions to the authors on how to improve the final report if they would recycle the text from the proposal

2 Part 2

The questions in this part probably require a single line to provide feedback to. Try to say a bit more than just yes or no (or partially). In other words, explain your answers.

- 2.1 What is the quality of the language/style/spelling used?
- 2.2 What is the quality of the used terminology?
- 2.3 Did the authors make good use of literature?
- 2.4 Is the proposal written with attention to detail?
- 2.5 Is the proposed research setup clear enough?
- 2.6 Is it fun/interesting to read?
- 2.7 Is the planning of the proposal adequate?
- 2.8 Is the proposed data analysis feasible?
